“ I live in Blackley and have studied at both the Avenue and Abraham Moss centres since 2019. I had been juggling being mum to three children including my youngest who is autistic.

I studied Level 2 maths and Level 2 teaching and supporting in the classroom.

During my Level 2 course I secured a position in a school in a one-to-one position and have continued to thrive – the courses gave me the confidence.

It’s been hard at times to juggle with starting work while being a busy mum. But my tutors always tried to help when I was struggling and have supported me.

In future I aim to progress onto the Level 3 course and potentially a GCSE in English and maths. ”
